Prometheus Books, 2005. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: This second edition includes four new appendices, which together span over two decades of further reflection on the same topics addressed in the first edition. "Fregean Theory and the Four Worlds Paradox" is a reply to David Over's review of the original edition. "Modal Paradox: Parts and Counterparts, Points and Counterpoints" is a critique of modal counterpart theory. "Naming, Necessity, and Beyond" assesses the arguments of Scott Soames and proposes a new understanding of English phrases like "the most abundant liquid on Earth." Also included is Salmon's response to an insightful article by Teresa Robertson. Salmon's book is considered by some to be a classic in the philosophy of language movement known variously as the New Theory of Reference or the Direct Reference Theory, as well as in the metaphysics of essentialism that is related to this philosophy of language. Hilary Putnam praised the original edition as "superior scholarship. an invaluable work.".
