## ASSESSING CHINA'S HEGEMONIC AMBITIONS

Biblioscholar Sep 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x6 mm. This item is printed on demand - Print on Demand Neuware - China's gross domestic product (GDP) growth rate over the past twenty years has been phenomenal and if continued even at a slightly slower pace, could exceed the GDP of the United States (US) by 2020. It is highly conceivable that China might convert the economic power into military and diplomatic power. Given China's domination of Tibet, incursions into the Spratly Islands, run-ins with the US and Japan, and a host of other seemingly assertive behavior, the purpose of this thesis is to investigate whether continued economic growth will lead to increasing hegemonic tendencies. This thesis employs a China-centric approach--China's history, classical strategic literature, strategic trends, and sources from the People's Republic of China (PRC) government, paramount leaders, and strategic thinkers are analyzed in order to uncover China's grand strategy and other clues that may signal hegemonic ambitions. These findings are then corroborated with an analysis of current day events as a reality check. 104 pp. Englisch.
