Excerpt from The Psychology of Froebel's Play-Gifts Under the title of Play-gifts we include that portion of Froebel's work usually called the Gifts and Occupations, such as are employed in the kindergarten. The attempt is here made to organize them according to their fundamental principle, and thereby to put them into their psychological order, which will show their educative value. The appreciation of the worth of the child, which seems just now to be dawning upon mankind in all its splendor and fullness of meaning, is one of the greatest facts of our time, and is its supreme educational fact.
